

The first questions to resolve

Summit Fitness Studio | 2025 CAM / NNN statement | Lease pages 1-3 and fictional statement page 1

CONDITIONAL ALLOCATION DIFFERENCE

\$2,225.00

The statement bills a 6.75% tenant share; the lease states 6.25%. This figure assumes the same \$445,000 expense base and no signed amendment changes the share.

A question to verify, not a confirmed refund.

01 VERIFY THE TENANT SHARE

The lease states 4,800 rentable square feet and a 6.25% share (lease pp. 1-2). The statement uses $5,184 / 76,800 = 6.75\%$ (statement p. 1). Ask for the area schedule and any signed amendment.

02 OBTAIN CAPITAL-COST SUPPORT

The statement includes \$60,000 for a roof project and \$20,000 for HVAC. The lease permits capital charges with amortization as determined by the landlord (lease p. 2). No project invoices or amortization calculations were attached.

03 CONFIRM THE REVIEW CLOCK

The lease gives 60 days after receipt of the reconciliation to dispute charges and includes waiver language (lease pp. 2-3). The statement shows an issue date, but no receipt date. An exact calendar deadline is therefore unknown.

REQUEST FIRST

1. Executed amendments and the rentable-area allocation schedule
2. Roof and HVAC invoices, useful lives, and amortization worksheets
3. Management-fee calculation and category-level general ledger
4. Statement delivery date and proof of receipt

The statement's arithmetic is internally consistent. Whether any expense is permitted or recoverable requires the underlying records and the complete executed lease.

The math behind the question

Same property charges and payment credit in both columns; only the tenant-share percentage changes.

MEASURE	STATEMENT	LEASE-SHARE SCENARIO
Property expenses	\$445,000.00	\$445,000.00
Tenant share	6.75%	6.25%
Allocated tenant charge	\$30,037.50	\$27,812.50
Estimated payments credited	(\$28,800.00)	(\$28,800.00)
Result	\$1,237.50 due	\$987.50 credit

WHY THE RESULT CHANGES

The \$2,225 difference equals $\$445,000 \times (6.75\% - 6.25\%)$. At the lease percentage, the same \$28,800 payment credit changes the statement from \$1,237.50 due to a \$987.50 credit. This remains conditional on the actual expense base and any valid amendment.

WHAT THE DOCUMENTS SUPPORT

Share mismatch	Lease pp. 1-2; statement p. 1	Conditional variance
Roof / HVAC support	Lease p. 2; statement p. 1	Records missing
Management fee	Lease p. 2; statement p. 1	Permitted category; verify basis
Review window	Lease pp. 2-3; statement p. 1	Receipt date missing

No express CAM / NNN increase cap appears in this lease. Tax and insurance increases and the management-fee category are not automatic overcharge findings.

A ready-to-review records request

This is a factual inquiry draft. Check the executed lease and timing requirements before sending a formal dispute.

SUGGESTED MESSAGE

Subject: 2025 CAM / NNN reconciliation records

Hello,

We are reviewing the 2025 CAM / NNN reconciliation for Summit Fitness Studio. The statement calculates our share at 6.75% using 5,184 rentable square feet, while our lease states 6.25% and describes approximately 4,800 rentable square feet.

Please provide the rentable-area schedule and any signed amendment supporting the billed percentage; the invoices, useful-life assumptions, and amortization schedules for the roof and HVAC charges; the management-fee calculation and expense base; and the category-level ledger and supporting invoices.

Please also confirm when the reconciliation statement was delivered to us. We would appreciate the records and an explanation of the allocation calculation.

Thank you.

BEFORE ACTING ON THE NUMBERS

1. Confirm whether the statement was received and record the date.
2. Check any signed amendment for a revised share or area definition.
3. Recalculate again after reviewing the actual category ledger and schedules.
4. Have a professional review any formal dispute or waiver question.
